Highly motivated and skilled Fresher Computer Science with a passion for developing innovative software solutions. Proficient in various programming languages including JAVA, REACT.JS, HTML, CSS, JavaScript, C, MYSQL, MONGODB with Strong Communication, Analytical and Problem-Solving Skills. Adaptable team player with a positive attitude and a drive for excellence. Ready to contribute and make a positive impact while acquiring practical experience in a dynamic work environment.

### PROJECTS

#### E-Commerce Frontend Website

- The E-Commerce Frontend Website is a fully functional online shopping platform built using ReactJS. The website offers a user-friendly interface for customers to browse, search, and purchase products across various categories including Men, Women, and Kids fashion. It includes essential features such as a shopping cart, user authentication with a login page, and a seamless checkout process.

#### Portfolio Website with Contact Form

- Developed a dynamic and responsive portfolio website utilizing HTML, CSS, and JavaScript to showcase my skills and projects. The website features a sleek design with smooth navigation and an interactive user interface.

#### Netflix Website Homepage Clone

- In this project, we aim to recreate the homepage of the popular streaming platform, Netflix, using HTML, CSS, and JavaScript. The focus will be on mimicking the layout, design, and functionality of the Netflix homepage, providing users with a visually similar and interactive experience.

### EDUCATION
