Projects

E-Commerce Frontend Website

The E-Commerce Frontend Website is a fully functional online shopping platform built using ReactJS. The website offers a user-friendly interface for customers to browse, search, and purchase products across various categories including Men, Women, and Kids fashion. It includes essential features such as a shopping cart, user authentication with a login page, and a seamless checkout process.

Netflix Website Homepage Clone

In this project, we aim to recreate the homepage of the popular streaming platform, Netflix, using HTML, CSS, and JavaScript. The focus will be on mimicking the layout, design, and functionality of the Netflix homepage, providing users with a visually similar and interactive experience.

Beyond Vesion Designs Interior Designer website

Our website, built on the robust WordPress platform, showcases our portfolio of stunning interior transformations and offers a seamless browsing experience for our clients. From residential havens to commercial spaces, we tailor each project to exceed expectations, ensuring every detail aligns with your vision.
